

# FULL-DISKfighter for Android

Phone layout

## 01 **First Scan**

- Use product icon only (this is very common on newer android apps)
- Big text showing storage info on device
- Some text that explain what FULL-DISKfighter does
- Easy overview of all files on your device the category circles will also function as buttons once scanned
- Show each category color
- A big fat scan button to get you started
- Some warning text about back-up

Landscape mode

## 02 Scanning

- Hide categori color and show grey stroke instead if it is possible it would be nice if the category color could animate on the circle stroke
- Replace the big fat scan button with a progress icon (default device progress icon)

### Landscape mode

## 03 Scan done

- · New text that explains what you can do now
- Show category color on circle-stroke and data inside circle
- Replace the text in the big scan button with "Rescan"

### Landscape mode

Portrait mode

### n do now ke and data inside circle ton with "Rescan"

## 04 Navigation

- · Added yellow color theme to menu icons
- popular apps like Facebook, Youtube, Foursquare etc...

Landscape mode

Portrait mode

• Use the swipe function for menu - this feature is very common with all

## 05 Unnessacery files /clear cache

- As requested i have removed all the apps and only focused on what you can delete
- Added a submenu with the option to view the app list
- Added the categori color theme to the icons
- Didn't find it nessacery to have the warning back-up text here becaurse you delete cache

### Landscape mode

|                           | <ul><li><b>⇒</b><sub>A</sub> ■ 1:23</li></ul> |  |

## **08** Large files /all

• Same style as before but here the category data is shown together on the circle stroke

### Landscape mode

### Same style for every category in Duplicate Files

## 09 **Duplicate Files** /images

- · Dropdown menu in the actionbar lets you navigate all categories in Duplicate Files (Audio, Video, Images, Other and All)
- · Select All, Refresh, Filter, Sort and Search in the actionbar
- Show info text about what you can do here and some caution text •
- Display the category circle from the Scan Done Page
- Display the data list below
- Use the same icons as in Large files
- Add "Select duplicated files" feature button if possible if not then we have to rethink what to do here

Landscape mode
